PEOPLE'S RIGHTS TO BE UPHELD

By Roosevelt Or Two Conventions.

Steam Roller's Progress Will Be Blocked By Teddy At Any Cost.

Chicago, June 19.—Col. Roosevelt will positively form a new party and lead it himself rather than submit to allow the millions of voters back of the progressive cause to be robbed through the packed roll call of the National Committee. Such was the message brought to Kentucky headquarters by two Kentucky Roosevelt men, who were escorted with Col. Roosevelt at 1 o'clock.

A well-known Republican from an adjoining State saw Col. Roosevelt at about the same time, and advised against such a course, urging that if Taft is nominated by fraud he will be overwhelmingly defeated, and Col. Roosevelt will be the inevitable leader in 1916, and Col. Roosevelt is understood to have stated that he did not fight that way; that he was at Chicago to fight thieves, and that he would not wait four years to try to compel the thieves to disgorge the property of 50,000,000 people.

LOOK FOR THIRD PARTY.

The atmosphere is very tense about Kentucky headquarters today, and the impression that the birth of a third party is at hand is general. The margin of control, even in the packed convention, is very close, and there will be one or two more, decisive roll calls before the rope strains to the point of breaking.

What chance the cause of honesty has of gaining votes in the Kentucky delegation no one knows. There are five votes which are held in line for the steal with great difficulty.

The Chicago Tribune, whose chief political writer, John C. O'Loughlin, is reputed to be entirely in the confidence of Col. Roosevelt, prints on its first page an article headed: "Honest roll or Roosevelt will go alone. Col. Roosevelt's followers to hold own convention in Columbus if list stands."

Following this O'Loughlin says: "Either the roll call of the Republican convention will be purged of the delegates fraudulently appointed upon it or there will be a double convention."

Today tens of thousands of men on the streets of Chicago or at the Coliseum are wearing an enormous placard bearing this sign: "Thou Shalt Not Steal."

Judge O'Rear arrived today and went at once into consultation with Mr. Edwards and Mr. Combs.

The meeting of the Kentucky delegates for organization in the Great Northern Hotel was practically without incident.

The action of the delegation at the meeting at Louisville was reaffirmed, there being no chances in the selections. The rumored substitution of Richard C. Stoll, of Lexington, for Maurice L. Galvin, of Covington, on the Credentials Committee, was not made.

NOT STRONG FOR TAFT.

There are on the Kentucky delegation several men who, though instructed for Taft, are at heart for Roosevelt, and this may have intensified the quite evident feeling of uncertainty. Congressman John W. Langley figures it that Taft will lose by the narrow margin of two votes.

In this he claims no change of the present standing of the Kentucky delegation—twenty-four for Taft and two for Roosevelt. B. J. Bethurum, of Somerset, who was seated to the favor of O. H. Waddell, the Taft candidate, is quite certain that the Credentials Committee will reverse the action of the National Committee and give him the seat.

He said: "I have not the slightest doubt that I will be seated, for the contest that was brought against me was so absurd." Charles H. Berryman, former chairman of the Fayette County Committee, and Henry T. Duncan, who is contesting the seat of Richard P. Stoll as delegate from the Seventh district, arrived, and through the hustling proclivities of Col. Dick Ernst, of Covington, had seats among the

spectators of the convention. CONVENTION MEETS AT 10 O'CLOCK TODAY.

Chicago, Ill., June 19.—(Special.)—The Republican convention reconvened Thursday afternoon at 4 o'clock and adjourned to meet Friday morning at 11 o'clock when a report of the Committee on Credentials will be made.

Taft forces say they are into the fight to the end. Roosevelt forces are fighting just as hard, and say that if Committee on Credentials does not give square deal they will bolt and form third party with Col. Roosevelt at the head for President.

After Five More Kentucky Votes.

Chicago, June 19.—In the motion made this morning by Gov. Hadley, of Missouri, it was shown that the Roosevelt forces intended to continue their fight on the seats of Stoll and Cudson, in the Seventh district; Wallace and Bethurum, in the Eighth district; and Waddell, in the Eleventh district. Gov. Hadley included their names in the list of seventy-eight names he moved he stricken from the roll to be replaced by the contesting Roosevelt delegates.

CLEAR RUN.

June 19.—Farmers are about through setting tobacco in this community.

Mr. and Mrs. Homer Martin went to Owensboro last week and purchased some new furniture.

Rev. J. A. Bennett filled his regular appointment at Mt. Carmel Saturday and Sunday.

Mr. Sam Richeson and family came down to visit his mother Saturday. Mr. Richeson returned Sunday, but Mrs. Richeson will spend the week visiting friends and relatives.

Mr. and Mrs. Robert Patton sent the day with uncle James Patton and wife Sunday.

Mr. Ernest Patton, wife and son dined with Charlie King and wife Sunday.

Mr. and Mrs. Scott Whitaker were the guests of their brother, Lee Whitaker and family Saturday night.

Mrs. James Stewart visited her son near Taffy Saturday.

The Barnett's Creek choir is practicing for the singing convention, which will be held at Red Hill Baptist church the fifth Sunday in this month.

Hartford College Destroyed By Fire.

The citizens of Hartford were suddenly awakened Wednesday morning about 2 o'clock by the fire alarm, and it was soon discovered that Hartford College was on fire. As usual everyone went to the fire immediately, with buckets and fire extinguishers, but upon arrival were unable to do any good.

It seems that the fire started in the primary room, where two coal buckets of sulphur saturated with alcohol had been placed in the stove and ignited. Sulphur had been placed in all of the stoves, but this was the only one where any accident occurred. It will be remembered that some weeks ago school was dismissed on account of the smallpox scare, and on account of this the building was being fumigated.

The entire town was out ready to do anything to save the building which had many pleasant memories for the majority of our people. There was nothing to do except see that the flying sparks did not set some nearby building on fire. This would have probably have caused much trouble had it not been raining for several hours before the fire, and everything was very damp.

Hartford College was erected in 1879 and the first school was held in September of 1880. The late Dr. Wayland Alexander, one of the best known educators in Kentucky was the first president of this school. Dr. Alexander remained with the school for many years and from Hartford College many of the prominent men in this city and over Kentucky were graduated.

This is a terrible calamity to Hartford and many are made sad by this destruction. The building cost \$20,000 for erection and was covered by \$8,000 insurance. Wednesday afternoon the Board of Education met in call session and discussed the erection of another building. However, it was decided to wait until Monday night when a mass meeting of the citizens is called at the court house, when the matter will be fully discussed. The Board asks The Republican to urge everyone to attend this meeting and give the Board their assistance. It is hoped that a modern structure that will accommodate many more students than the old building will be erected, and that the work will begin at once.

MILLIONAIRE AND WIFE KILLED ON HONEYMOON

Cincinnati Manufacturer and His
Bride Run Down by Lake
Shore Train.

Erie, Pa., June 18.—T. A. Snider, a millionaire manufacturer of Cincinnati, O., and his wife, who were on their honeymoon were instantly killed late today when their automobile was struck by a fast train at a crossing of the Lake Shore and Michigan Southern Railroad, at Harbor Creek, near here. Miss Ethel Stanton, a daughter of Mrs. Snider, was seriously hurt, while the chauffeur, Harold Lee, escaped with minor injuries.

The bodies of Mr. and Mrs. Snider were terribly mutilated.

The accident today follows one that occurred here yesterday when Mr. and Mrs. Thomas Clune, of Tatusville, Pa., who were spending their honeymoon in Erie were drowned in the bay, when their boat was capsized.

The scene of today's accident is eight miles from the city. The roadway runs along the south side of the railroad tracks for a number of miles and then turns abruptly across the tracks. Train No. 43 Westbound, was traveling at high speed.

The Snider automobile reached the crossing as a freight train was passing. As the last car went by the automobile started to cross and was struck by the passenger train.

Mr. and Mrs. Snider, who occupied the rear seats were thrown far ahead of the train and directly into its path.

Illinois Delegates Stick to Roosevelt.

Chicago, June 19.—The fact that some of the Illinois delegates voted Tuesday for Senator Root for temporary chairman of the convention must not be construed to mean that they will disregard their primary instructions and vote for Taft when the big test comes. They will not do anything of that kind.

This was the statement made by Gov. Charles S. Denen, chairman of the Illinois delegation. The Governor has declared for Roosevelt, and says that he expects that popular vote of the Republicans in Illinois will be regarded.

ROOT RIDES TO POWER ON THE STEAM ROLLER

Elected Temporary Chairman After
Scenes of Wild Disorder
in Convention.

Chicago, Ill., June 19.—Against the threats, charges and bitter invective of the Roosevelt forces, the Taft supporters in the Republican National Convention Tuesday put through the first portion of their program by electing Senator Elihu Root, of New York, as temporary chairman. In spite of the fact that Victor Rosewater, chairman of the National Committee, consistently ruled out of order every motion made by the Roosevelt forces, it required more than five hours to reach a vote on the chairmanship.

The calling of the roll was set with difficulties from the very first name on the list of delegates, but in the end, when the tumult had died away, Senator Root was found to have won by a vote of 558 to 502 for Gov. Francis B. McGovern, of Wisconsin, with fourteen scattering votes and two not voting.

When Mr. Root was made chairman and managed to deliver his "keynote" speech after much difficulty, no committees were named, and none will be until this motion to "purge" the convention of "fraudulent delegates" is disposed of. This was defeated on a point of order, but the Roosevelt forces declare that parliamentary practice will not be permitted to stand in their way.

The Roosevelt people and the Taft people carried out their programs as announced in advance almost to the letter.

California, under the leadership of Gov. Hiram Johnson, assumed a belligerent attitude almost with the start of the roll-call when the two Roosevelt delegates from the Fourth district, unseated by the National Committee, were not allowed to vote. But they confined their protest to eloquence; the two voters for Root were the only encouragement in that State upon the vote cast for McGovern. Later, Pennsylvania fell into the breach and made even a fiercer protest against the vote of an alternate.

During the speeches seconding the nominations of Root and McGovern for temporary chairman there were scenes

of wild disorder, especially when Francis J. Henry denounced the members of the National Committee and when Senator Bradley, of Kentucky, arose to express his views. Senator Bradley was constantly hooted and reminded of the fact that he had voted for Lorimer, a fact of which he seemed especially proud.

"You voted for Lorimer," was the cry that greeted Bradley as he took the rostrum.

"Yes, I did, and I voted for a man 10,000 times as good as you are," was his reply.

Then came a regular whirlwind of hoots and hisses as the Senator tried to make himself heard. Finally he contented himself with howling "Liar, liar, har" at the assembled throng, and the remainder of his speech was lost in a hubbub that the chairman was unable to quiet.

One of the features of the roll call, and one which caused Bradley and his cohorts much discomfort, was the action of Judge W. C. Halbert, of the Kentucky delegation, who joined William Heyburn and Don C. Edwards in voting for Francis E. McGovern.

The experience of Senator Bradley in making the Taft people uneasy about what may happen when Bradley seconds the nomination of Taft.

OLATON.

June 19.—Mr. J. W. Bradley was in Olaton, Fordsville and Ellimitch Saturday, going from the latter place via the M. H. & E. to Dundee where he made a short visit before returning to his home at Rosine.

Mrs. Hattie McDaniel was here from Beaver Dam from Friday until Sunday night with relatives and friends.

Mrs. Annie McDaniel returned Saturday night from a several day's visit at Central City, Island and Owensboro.

Mr. J. H. Daniel, Hartford, Iva Payton and Clara Wilson, Renter, returned home Sunday night from the day's visit to relatives here.

Mr. Arthur May attended the unveiling at Toney Sunday.

Miss Essie Lynch, of Friedland, is the guest of her friend, Miss Nora Patterson, and attending the protracted meeting at the M. E. church.

Mr. Edward C. Tyler, of Mt. Washington, Ky., manager of the Tyler Portrait and Frame Co., of Louisville, and who has been stopping at the May House during his several week's stay at this place, was canvassing at Pattiesville Friday and Saturday.

Messrs. Arthur May, Walter Patterson, Dee May and Elbert Hazelwood went fishing Wednesday night and caught 11 1-2 pounds of fish.

Rev. Chrisley Gentry pastor of Olaton's new M. E. Church, began a protracted meeting Sunday night June 15th. In which he is assisted by Rev. Talbot, wife and daughter, Florence, of Kingswood, Ky. The sermons are among the best that have ever fallen on the ears of Olaton people, and truly we have with us four of God's mighty flashes of human souls. The bait used is purely Bible food and unless we have ears to hear and hear not, and eyes to see and see not, at least a goodly share of that food shall be ours. The meeting will probably continue for ten days or two weeks, and the W. O. W. Hall, in which the meeting is being held, is crowded at almost every service. The meetings are at 11 a. m., and at early candle lighting in the evening, and a large number of people from nearby towns are regular visitors.

Mr. and Mrs. Geo. B. Thompson have returned home to Crawley, La., after an extended visit to relatives and friends at Olaton, Friedland, Horton and Louisville.

Mr. Simon B. Smith, of Fortsville, and Mr. David Lambert and sister, Miss Ida, of Payton schoolhouse, were pleasant visitors at Olaton, Tuesday.

Mrs. J. S. Bean was in Hartford from Wednesday until Tuesday visiting friends and relatives.

The infant daughter of Mr. and Mrs. Ira Faught, who reside near White Oak schoolhouse, Olaton, route 1, died June 15th at 9:30 a. m. Interment was in the Faught Cemetery at 10:00 o'clock Sunday, and a large crowd was in attendance.

Mr. W. B. McDaniel was in Central City, Ky., Thursday in the interest of the Olaton Roller Mills.

The grave of Sovereign Willie Loyd was decorated by the W. O. W.'s of this place, at the New Bayums cemetery, Sunday June 16th, and a large crowd was present.

MURDERER OF OFFICER IN JAIL

Owensboro Policeman's
Slayer Caught in St. Louis.

Arrest Made Through Letter
Which Was Intended for
His Sweetheart.

Indianapolis, June 16.—Levi Lockhart, 42, alias George J. Blackburn, who is wanted in Spencer county, Indiana, for killing J. C. Dawson and wounding James Bell, Owensboro, Ky., policeman, June 1, was captured at the home of a relative in St. Louis by Thomas Larmore, Indiana State Prison Agent, and Captain of Police A. H. Kruse, of Vincennes, Ind. Larmore and Kruse arrived in Indianapolis with their prisoner on their way to the State prison, from which Lockhart was paroled. The prisoner will then be turned over to the Spencer county authorities to be tried for murder.

Lockhart, who is said to be one of the most desperate men ever sentenced to the State prison, also is wanted in Owensboro, Ky., upon a charge of horse stealing. It was while in pursuit of Lockhart that Dawson lost his life and Bell was wounded. The officers followed him across the Ohio River into Spencer county and, coming on him in a lonely country road, engaged in a revolver fight.

PRAISES DAWSON'S GAMENESS.

"Dawson was the gamest man I ever saw," said Lockhart, speaking of the tragedy. "He followed me and when his round of cartridges had been used he started to beat me with the butt-end of his revolver. I shot him and he fell face downward."

Lockhart was wounded in the left leg by one of the policemen and fled without stopping to have the injury dressed. The first two days Lockhart walked forty miles on the injured leg. He then went to Belleville, Ill., where he sold his revolver, and from there he went to St. Louis.

Lockhart has a long prison record. He has twice been sentenced to the State prison for grand larceny. He is also wanted in the Southern part of the State, it is said, for taking stolen goods into the county. A reward of \$500 was offered by the city of Owensboro, Ky., for his capture.

LETTER TO SWEETHEART.

The arrest of Levi Lockhart was brought about by a letter sent here by Lockhart last week and intended to be forwarded to Ella Campbell, his sweetheart, at Rockport, Ind. The letter to the woman was a passionate one and also expressed his contempt for Indiana officers and bouncer at the manner in which he eluded posess. Blackburn's identity as Lockhart, a miner formerly of Princeton, and who has served a term from there for larceny and later from Booneville for robbery and that he had been paroled and had violated his parole was established by Chief of Police Dan Haley, of Princeton, Ind., a few days after the murder June 1 near Rockport, and since then Haley, Gibson, Sheriff Skelton, of Gibson county; Prison Agent Larmore and other officers have been working constantly on the case. Lockhart is believed to have spent the Monday night after the murder in Princeton with his two brothers and then to have gone West.

OWENSBORO CHIEF BUSY.

Owensboro, Ky., June 16.—Levi Lockhart, alias George Blackburn, who was arrested in St. Louis and hurried to Indianapolis, is wanted on the charge of murder and horsestealing in addition to violating his parole from the Michigan City (Ind.) penitentiary, to which place he was sent on a grand larceny charge. Lockhart was accused of having stolen a horse in Spencer county, Ind., two weeks ago, and bringing it to Owensboro and selling it. He was followed to Spencer county by Officer J. C. Dawson and James Bell, of the Owensboro police force. The officers came unexpectedly upon Lockhart at a bend in the road and he pulled two automatic pistols and began firing. Dawson was shot six times and died instantly. Bell was badly wounded. Lockhart escaped and made his way to St. Louis, where he was tracked by one of the Indiana penitentiary officers.

Chief of Police G. F. Reynolds left Owensboro today for Indianapolis, and will request that Lockhart be turned over to the Spencer county, Ind., officers at Rockport, Ind., which is only ten miles from Owensboro.

SALARIES OF COLLEGE PROFESSORS ARE LOW

Negro Comedian Makes More Money Than College Tutors.

The range of salaries for the heads and faculties of State aided institutions of higher learning in this country is given in a bulletin issued by the United States bureau of education.

According to this authority one can see that Bert Williams, the negro comedian, can make a great deal more money than even the highest type of college presidents. The best paid head of any institution of this class is the president of the University of California, who receives \$12,000 a year and a house. The presidents of Illinois university and Cornell university each receive \$10,000 a year and a house, while the president of the University of Minnesota gets \$10,000 without a house.

From these figures the presidents' salaries run down as low as \$2,400. The salaries of the faculty members range from \$50 a year for the least paid tutor to \$6,000 a year for the best paid full professor, both extremes being touched at Cornell.

The bureau of education's bulletin shows that the United States now contains exactly 100 universities and other institutions of higher education which depend in considerable measure on the state or federal government for their support.

Of these, sixteen are agricultural and mechanical colleges for negroes. Four of these state aided institutions have more than 400 members on their faculties—namely, the University of California, with a faculty of 421; the University of Illinois, with 330; Cornell university, with 62, and the University of Wisconsin, with 186.

Dissatisfied with Prosperity.

An old epigram runs in this fashion: "I was well, wanted to be better, took medicine, and here I am." A considerable part of the 15,000,000 voters of the United States, though hardly a majority, are apparently ready to censure the party that controlled all departments of the government from 1897 until the present House was elected. That was a period of sixteen years, and the executive branch is still Republican. What will Republicans have to say for themselves if called on to deliver the keys to another party on March 4 next? It will be something better than was ever said before under such circumstances. How stands the treasury at this moment? By the end of the month, which is also the end of the fiscal year, the surplus will be considerable.

During the sixteen years all American dollars were made as good as gold. The war with Spain was fought and paid for. It is needless to go into the details of the resulting territorial expansion. Nor is it required to give a long table, expressed in billions, of the general progress of the country. Tested at any point the answer is the same. Business is active all along the line, and the masses are steadily employed at good wages. What a contrast with 1897. It that year the Republicans took hold, with promises to improve the situation in all respects. They have fulfilled the pledge more amply than was expected. Good times were restored, and so thoroughly that the building and completion of the Panama Canal became possible. This link between the oceans looked in 1896 like a dream of the distant future. If there must be a temporary Republican valedictory—which is improbable—it will be a thrilling review of great achievements.—Globe Democrat.

The Hunting Law.

The new hunting law went into effect on Wednesday since which it has been unlawful to hunt without a license except on your own premises, owned or under lease. The law also applies to selling, trapping or dynamiting fish. The penalty is a fine or imprisonment, or both, and a confiscation of the outfits captured.

Resident hunters that have resided in the state 12 months preceding, may obtain a license by paying \$1.00. Non-residents must pay \$15. They are issued by the county clerk on proper application who will furnish blanks for the purpose.

The open season for squirrels and young rabbits is June 15.

All persons hunting without a license in possession, ready to be exhibited to any one demanding same, will be subject to a fine of not less than \$10 nor more than \$25. License are not transferable. Any person who shall make to an officer authorized to issue hunting license, a false statement or change or alter his license in any manner, shall be punished by a fine of not less than \$50 nor more than \$200, to which may be added a sentence in the county jail. That is going after them some. He had better pay one little dollar and be a good law abiding citizen, and at the same time help to protect the fish and birds.

The law is also very stringent in regard to killing some birds.

Railway Wages and Cost of Living in the United States and Europe.

The Bureau of Railway Economics has completed the second of its comparative studies of railway conditions in the United States and the principal countries of Europe. This relates to the wages paid railway employees and the cost of living, and is based on the latest years for which comparative data are available.

The average daily compensation of railway employees of all classes for the year 1910 was in the United States, \$2.23; in the United Kingdom, \$1.05; excluding supplementary allowances negligibly affecting the average, it was in Prussia, \$1.68, in Austria \$1.89 cents. The lowest paid railway employee in the United States, the ordinary trackman, receives a greater compensation than many of the railway employees of France, even those of higher grade and with responsible duties. The compensation of railway employees is from two to three times as high in the United States as in Italy.

A recent report of the English Board of Trade on railway wages show that the average weekly pay of engine-men in the United Kingdom in 1907 was \$11.17; of firemen, \$6.67. In the same year engine-men on American railways received an average weekly compensation of \$25.91, counting six days to the week, and firemen \$15.24. Recent returns make it clear that in 1912 engine-men and firemen in the United States are compensated at rates of pay for specific runs that are two, three and four times as high as the corresponding rates on representative English railways. The annual compensation of engine-men in the United States, as reported by two representative rail-

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's farder that builds up those weakened by disease.

F. E. MUNRO, Esq.

Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N. Y., has received many letters similar to the following:

Mr. FRED R. MUNRO, of Paradise, N. S., writes: "I take great pleasure in writing you as regards my case and its cure. In September I was taken with Typhoid Fever, which put me in a dreadful condition. I was weak, run down, nervous and was reduced to a mere skeleton. I had tried most everything I could get but nothing did me any good until, at last, I was advised to try Dr. Pierce's Golden Medical Discovery, and 'Pleasant Pellets,' which I did. Before I had used one bottle I saw a great improvement and when I had used this treatment two months, using only a few vials of 'Pleasant Pellets,' I returned to perfect health. I cannot find words to express my thankfulness for this wonderful medicine. I advise all sufferers to write to Dr. J. C. Pierce, as he cures when others fail."

way companies, now ranges from \$1.10 in switching service to over \$2.80 in passenger service, and of firemen from \$7.00 in switching service to over \$17.00 in passenger service.

For Continental Europe official returns in requisite detail are not available for a later year than 1908. The salaries and allowances of the typical engine-man in Germany amounted for that year to \$16.88, in Austria to \$76.80; of a fireman in Germany to \$24.59, in Austria to \$32.03. The annual compensation of engine-men on two of the principal railways of France ranged in 1908 from \$56.66 to \$906.91, and of firemen from \$24.24 to \$395.98. In Italy engine-men received in 1908 salary and allowances included, from \$38.10 to \$812.70 a year; firemen, from \$330.30 to \$475.05 a year. In these Continental countries the maximum compensation is received only after many years of service.

The average annual compensation of engine-men in the United States in 1908, on an estimated basis of 300 days' service, was \$1.35; of firemen, \$7.93. In this country the rate of compensation to these employees does not depend on length of service.

In Belgium engine-men received in 1907 from \$23.16 to \$380 a month; firemen, from \$17.37 to \$23.16 a month; conductors and station employees, from 10 cents to 95 cents a day. In the United States, in the same year 1907, engine-men averaged,

on the basis of 25 days' service, \$197.53 a month; firemen, \$63.50 a month; conductors, \$3.68 a day; station employees, from \$1.78 to \$2.65 a day.

The rental of a three or four room house or flat is almost as high in Berlin, Paris, or London as throughout the United States, but in England and on the Continent it generally runs from thirty dollars to ninety dollars a year less. The quantity of food and fuel estimated by the Board of Trade of England as the standard consumption of a typical workingman's family cost in the United States 17.8 per cent more than in France or in Germany; 35.3 per cent more than in Belgium, and 38 per cent more than in the United Kingdom.

It is well within the truth to estimate in a broad and general way that while the cost of living of a railway employee in the United States is less than fifty per cent higher than that of a corresponding employee in the United Kingdom or on the Continent, his compensation averages over twice as great.

FRIDAY, JUNE 21.

What we need is not a new kind of coin, but more power to hold.

During the convention at Chicago this week it is very appropriate to call Chicago the "Windy City."

It is not only possible, but highly desirable to make the Fourth of July as safe and sane as Memorial Day.

A Boston clergyman says American women wear too many clothes at water resorts. He is certainly hard to please.

Lots of chickens in Ohio county are on their last legs now. Camp meetings, basket dinners and other gatherings are beginning to open.

Bathing suits at the public beaches are to be made sanitary, but as yet nobody has volunteered to boll the lake between the swims.

Woman married three times, has had an oil man for a husband on each occasion. It appears she is trying to get up to the "standard."

The Pennsylvania couple who can't remember whether they have fourteen or sixteen children, should refer the dispute to the family shoemaker.

Many things transpire in the proceedings of circuit court that are interesting to the uninitiated in court work, as well, sometimes, as to regular court attendants. However, Tuesday morning after motion hour His Honor Judge Birkhead, was called upon to pass sentence upon a young man who had been found guilty of seduction. The unfortunate young fellow was called to the bar and asked by the court if he had any reason to offer why he should not be sentenced to hard labor in the penitentiary. To this he naturally replied he was not guilty. We have heard many sentences passed by the various courts, but the sentence passed and the words of advice and admonition given by Judge Birkhead were truly a masterpiece. While the sentence was as severe as possible, yet it was couched in words of fatherly advice and wisdom from this jurist. We wish that every young man in Ohio county could have heard this charge, and we feel that some would have probably changed from an immoral life to a correct and perfect deportment and would start out with a new and firm determination to be on a solid foundation.

DANGER OF SPITTING.

Ninety-five per cent. of our consumption, says the North Carolina State Board of Health, "comes from careless spitting on the part of the consumptive, but also from people who are apparently healthy. Spitting is frequently laden with deadly disease germs, particularly that of consumptives."

"When one coughs, spits or sneezes a great multitude of tiny drops of spittle are violently expelled from the mouth and nose. The largest of these drops can be readily seen. A large number of smaller droplets can be found if a mirror or piece of glass is held before the face when coughing or sneezing. A tremendous quantity of still smaller droplets are discharged in the form of an invisible spray or mist, which floats about in the air for some time. Scientists have found that when a man coughs, spits or sneezes in a large hall or room where the air is quiet, these tiny, invisible germ-laden droplets will float in the air for a distance of 25 to 100 feet. These tiny droplets, in the form of mist or spray, may be breathed in by other people, or they may settle on objects with which they come into immediate contact, such as food and clothing. Viewed in this light, such conduct is at least impolite. Furthermore, it is dangerous to the public at large to have careless people actually coughing, sneezing and spitting germ laden matter into the faces even if it is invisible and in the form of fine mist."

Battle Flag is Returned

Hickman, Ky., June 17.—Gen. A. Tyler, of this city, commander-in-general of the Fort troops has received from a man in Arizona a Confederate battle flag that was captured at the battle of White Station, near Memphis, from Gen. Chalmers' army.

had been sent by Gen. Forrest to make a feint on Memphis for the purpose of protecting his movement into Tennessee near Nashville. The sender of the flag said he had been presented with the flag by the Colonel of the regiment that captured it. Gen. Tyler immediately sent the flag to Gen. N. B. Forrest, Commander-in-Chief of the Sons of Veterans to be placed in the museum of that body in Memphis.

CENTERTOWN.

Mrs. Foster McKenney, of this place, is visiting her son, Dr. McKenney, of Louisville.

Mrs. Laura Crowder, of Horse Branch, is here visiting her parents, Mr. and Mrs. A. B. Rowe.

Mr. Edwin Nelson and wife, of Williams Mines, visited Mrs. Nelson's mother, Mrs. Lou Maddox, last week.

Mrs. Ben McKenney and children, of Golconda, Ill., are here visiting the family of Mr. Foster McKenney.

Misses Mattie and Lottie Kuykendoll, of Matanzas, visited the family of Mr. E. S. McMillan Saturday and Sunday.

Miss Mattie Shelton, of Boxville, Ky., is here visiting her sister, Mrs. Geary Hagerman.

Mr. E. M. Davis and family visited J. A. St. Clair, Sunday.

Misses Livia McKernan and Myrtle Parks, of Central Grove, were visitors in town last week.

Robert Rowe, while placing some machinery in a wagon last week, was thrown down and severely hurt.

A large crowd from here attended the party at E. R. Ashby's Saturday night. All report a fine time and lot of fun.

Mr. Pyrtle Park, of Central Grove, was in town Sunday. Something strange about him coming so often.

900 Pension Applications.

Nine hundred applications for pensions under the new act granting allowances to veterans of the Confederacy have been filed with pension Commissioner Stone, and scores are being received every day. No way has been found yet to estimate how many applications will be made. The State Board which has charge of the distribution of pension money will decide who are entitled to pensions. The first payments will be made on August 5.

Colonel's Double is on the Job At Chicago.

Chicago, June 18.—J. M. Keyes, delegate from Massachusetts, is a double for Col. Roosevelt, and the fact was the cause of considerable excitement last night in a Michigan-avenue hotel cafe. The delegate was enjoying his dinner when there was a stampede toward him of persons who thought they were gazing on the ex-President.

It was necessary to get a detail of police to check the crowds who were about to rush the "candidate."

Mr. Keyes wears on his lapel a button photograph of himself, labeled "I am Roosevelt's Double. Can You Beat It?" He says he does not always enjoy the button, as it is often the cause of considerable annoyance, especially in crowds.

Watch the Farmer Vote.

Who will control the coming presidential election? The farmers will have a great deal more to say about it than most people imagine. The farmers are not trusting to luck this time. They have been shaping their affairs and preparing for the worst. They will not be caught with surplus stock and products. They have been engaged in disposing of every thing they could and turning it into money. That money is now in the banks and if a Democrat should by chance be elected President they will be ready for the worst that may happen. There are many farmers in Pike County who as a usual thing vote the Democratic ticket and may do so when it comes to state and local affairs, but they are not at all anxious to see a Democrat elected President. They have come to realize that a Protective Tariff is good enough for them. In this county, as elsewhere, they are opposed to Canadian "reciprocity," a proposed piece of legislation that they fear would have been very detrimental to their interest. The farmers are a reading and thinking class of men today, and they are not as easily fooled as they were a few years ago. Watch the farmer vote and if you can tell anything about it you will do well.—Louisiana (Mo.) News.

Drowned in Green River.

Central City, Ky., June 19.—Earl Barnard, the nineteen-year-old son of John Barnard, was drowned in Green river just across from South Carrollton. The young man, in company with an older brother and the two sons of John Durham, an adjoining farmer, had gone to the river to run trap lines. The older brother and one of the Durham boys were going across the river to look at the lines while the younger boy and the other Durham boy remained on the shore. The body has not been located.

Meat Prices May Drop.

The Philadelphia Record says: Meat will go to any price that people will pay. There is no serious scarcity of food animals. The price of corn is an inadequate explanation of the price of meats. But the packers will get as high prices as they can, and the retailers will get large profits, if possible. If the demand for meats should fall off prices would come down. In spite of cold storage meat will not be kept indefinitely, and the big packers wish to keep their plants running and turn their capital over as often as they can. If they can't

sell at present prices they will take loss. At this season of the year it is a good plan to eat lightly of meat, and the experiment may convince people that they do not need as much meat, even in cool weather as they have been consuming. If the demand should fall off the prices would come down proportionately.

Vast Throng Gathers for Big Convention.

Chicago, June 18.—The number of visitors to Chicago for the convention was estimated last night to be well above 150,000.

Every hotel in the downtown district was crowded to its capacity, and late crowds were directed to outlying hostleries.

Early today, with not more than ten exceptions, the full list of delegates and alternates had been accounted for. The various State delegations had accompanying friends crowded the hotel corridors and street corners long after midnight.

Genuine Mocha Coffee Must be 200 Years Old.

Chicago, June 18.—Coffee branded "Mocha" that is less than 200 years old is not genuine, according to twenty coffee experts who testified in United

States District Judge Landis' court today. The last shipment from Mocha, Arabia, was made about two centuries ago, they testified.

The question of what was "Mocha" arose during the trial of the Thompson-Taylor Spice Company on a Federal charge of misbranding coffee.

It was alleged the coffee was raised in Abyssinia. The company was fined \$1 and costs.

Suffragettes in Fight.

Chicago, June 18.—Another interesting battle loomed up in the National Convention program Tuesday, when it was announced that the anti-suffragists would oppose the efforts of women who seek the right to vote to have a suffrage plank placed in the national Republican platform.

Led by Mrs. Arthur Dodge, a delegation representing the New York Anti-Suffrage Society was expected in Chicago Tuesday to aid in the fight.

The plan of the anti-suffragist is to appear before the Resolutions Committee at the same time that the National Suffrage Association makes its plea.

Brings Suit for Ruined Trouseau.

Nashville, Tenn., June 17.—Suit for \$2,000 damages for ruin of a bridal trousseau was filed here by Mr. and Mrs. J. L. Justice of Memphis against the Nashville, Chattanooga & St. Louis railway and Nashville City Transfer Company. It is alleged that on a visit to her parents here soon after her marriage her trunk reached the home with the contents gummed up with molasses and the garments ruined, necessitating a stay here until a new outfit could be procured.

Notice to Citizens

A great calamity has befallen our town in the loss of the College building, the pride of every citizen of Hartford and community. The Board of Education held a call meeting Wednesday afternoon and decided to call a mass meeting of the citizens of our town and community at the Court House Monday night, June 24, to advise with them what steps to pursue, and devise means by which funds may be raised for the erection of a new building at once. Let every one interested in upholding our educational standard come and take part in this meeting. We need your advice and help. The meeting will be held at the court house, Monday night, immediately after the services of the Christian Church now in progress.

Hunting License.

Frankfort, Ky., June 16.—J. Quincy Ward, the executive agent under the Game and Fish Commission, is preparing to send out to all county clerks blanks for issuing licenses to hunters under the new law. Kentucky hunters must pay a license of one dollar and it is expected this will bring in a revenue of \$1,500 to \$3,000 a year, which will be used to pay the expenses of the Commission including game wardens and other officials. The licenses are due in May each year, but as the law did not become effective till June 10 this year the blanks could not be sent out earlier than June. No license is required for fishermen.

Flagman Died Suddenly.

(Special to The Republican.)
Narrowa, Ky., June 23.—Billie James, flagman on the Owensboro branch, I. C. R. R., was found in a dying condition on the train late Wednesday evening. He lived only a few minutes after his condition was discovered by the conductor and did not regain consciousness. His death was due to heart failure. His remains were taken to Leitchfield for interment.

Taft's Own Estimates Show Weakness Plainly.

Chicago, Ill., June 18.—From the inside Taft personal following there came the exact estimate of the President's strength on the first ballot. His immediate family circle of political advisers say that he has eight majority, with the possibility of losing on the brink of a drop to Roosevelt.

Announcement Extraordinary!

Barnard & Co., after five years of successful merchandising, announce radical changes.

Our Quick Sale was very successful in its intention—to quickly reduce our stock—but we wish to reduce our stock to the limit. To do this requires hard, careful work. We realize that unless we give our customers better values than they can get elsewhere, it is very hard to greatly reduce our stock.

This We Propose To Do.

You will profit by purchasing from us within the next thirty days. We will keep our stock of perfectly staple notions and many other staples and will furnish them at less than you usually pay and at the same time sell you the merchandise on which we are overstocked at very, very low prices.

To our friends, we urge you to continue your much appreciated patronage. Our relations have been very pleasant and we hope to merit your continued favors.

Announcement of proposed change in our business will be made in due time.

Thanking you for many, many favors, we are
Yours truly,

BARNARD & CO.,
Hartford, Ky.

WE boom our business by giving our customers good stuff for their money.

Whenever you see people doing a thriving business you may know there is a good reason for it. You may be fooled when you try your goods "on," but you can't be fooled long after you try them "out."

We are in business to stay in business. We would rather make a little profit and be sure of a big business, than to make a big profit and take chances of having to quit.

We give our customers good stuff for their money, but we don't "stuff" prices.

Abraham rested upon that promise; so did Isaac; so did Jacob. And so we rest in this Divine assurance that a blessing will come to the children of Adam in God's due time; more than this, thus seated, we are resting in the Divine promise. To us has come the wonderful assurance that, if we sacrifice our little *all* of the present life, we shall become joint-heirs with Messiah in His Kingdom, members of His Bride.
